

Can you give
me Graves ed.
den?

YOULBURY,

1844.

Dear Macmillan

Many thanks for your
letter. By all means show
mine to Loring if it helps
to clear up matters. I have
heard from Hogarth that he
is postponing his final de-
cision with regard to the
Committee's proposals till he

returns in July. He would
like to have January to Eng-
land & to get it home at A.
throw off his hands.

I am sorry to hear that
the amount of subscriptions am-
ounts to 15 small. I will put
a number of short copies of
the copied plates for circulation.
Perhaps all members of the
Hellenic Society. Distribute in
consequence shall have a copy.

This volume of Cicero is a School to many
Lecturers at the present moment. I fear the
many of the causes of the Cicero is its deep
as to be removed by a more cheap of Directors.
It is largely to Universities & to Churches of
the Students that are at fault.

Yours ever

Arthur J. Evans
